Associated Certification Criteria

Measurement/Metric	Associated Certification Criteria	Relied Upon Software (if applicable)
§ 170.315(h)(1) Direct Project	§ 170.315(h)(1) Direct Project	EMR DIRECT

Justification for Selected Measurement/Metric

Measurement/Metric	Justification
§ 170.315(h)(1) Direct Project	The health IT could electronically transmit (send and receive) health information to a 3rd party using Direct in accordance with the Implementation Guide (IG) for Delivery Notification in Direct, Version v1.3.

Care Setting(s)

Care Setting	Justification
Ambulatory setting	Our EMR is used only in Ambulatory setting

Outcomes

Measurement/Metric	Outcomes
§ 170.315(h)(1) Direct Project	1-We could electronically transmit (send and receive) health information to a 3rd party which must be formatted only as a “wrapped” message using the Applicability Statement for Secure Health Transport, Version 1.3. 2-We could electronically transmit (send and receive) health information to a 3rd party using Direct in accordance with the Implementation Guide (IG) for Delivery Notification in Direct, Version 1.0. Error rate was less than 5%. “Error rates was tracked and trended over time

Key Milestone	Care Setting	Date/Timeframe
Direct Project	Ambulatory	Nov 16, 2023

SUMMARY OF TESTING METHODS AND KEY FINDINGS:

In this criteria, five users used this measure in two different sites to check this criterion in real world testing. The error rate remained less than 5%. We followed the error rate for this criterion over period of time to see the trend of error rate. It remained less than 5% throughout the trend analysis.
