

**§ 170.315(c)(3) Clinical quality measures (CQMs) — report (Cures)**

Measurement/Metric	Description
<b>170.315(c)(3) Clinical quality measures (CQMs) — report (Cures)</b>	Enable a user to electronically create a data file for transmission of CQM data in accordance with the CMS Quality Reporting Document Architecture

**Associated Certification Criteria**

Measurement/Metric	Associated Certification Criteria	Relied Upon Software (if applicable)
§ 170.315(c)(3) Clinical quality measures (CQMs) — report CCG	§ 170.315(c)(3) Clinical quality measures (CQMs) — report CCG	NA

**Justification for Selected Measurement/Metric**

Measurement/Metric	Justification
<b>170.315(c)(3) Clinical quality measures (CQMs) — report (Cures)</b>	It is high priority criteria in improving clinical outcome of patients care by EMR to able to create data file for transmission of QDRA.

**Care Setting(s)**

Care Setting	Justification
Ambulatory setting	Our EMR is used only in Ambulatory setting

**Outcomes**

Measurement/Metric	Outcomes
<b>170.315(c)(3) Clinical quality measures (CQMs) — report (Cures)</b>	Enabled users to electronically create a data file for transmission of CQM data in accordance with the CMS Quality Reporting Document Architecture. Error rate less than 5%.Error rates was tracked and trended over time.

Key Milestone	Care Setting	Date/Timeframe
Record and Import quality measures	Ambulatory	Nov 16, 2023

**SUMMARY OF TESTING METHODS AND KEY FINDINGS:**

In this criteria, five users used this measure in two different sites to check this criterion in real world testing. The error rate remained less than 5%. We followed the error rate for this criterion over period of time to see the trend of error rate. It remained less than 5% throughout the trend analysis.
